LOCALS

Robert Hastie, the Bluegrass Carpenter, was called to Toronto on Wednesday, by news that his aged mother lay almost at the point of death.

A party of about 20 Hollanders arrived on Sunday, the 23rd. They will all settle in the Holland Colony near Tripola. In the party are the parents of Mr. John Warnink. Mr. Tyllius and family have also arrived back after an extended visit in Holland. Canada looks like the promised land to these worthy people, after what they have gone through in turbulent Europe.

A. H. MacPherson and Mrs. MacPherson left last week for Prince Rupert, B. C., where they will in future reside. Mac has been appointed a Bridge and Wharf Engineer under the British Columbia Government.

Private Ernest Tree of the 175th, has been reported as wounded. Private Ole Berget is reported as wounded and missing since May 1st.

Mrs. C. H. Wagner of Moosejaw and Mrs. Harrop of Medicine Hat were guests in town on Tuesday.

Alderson sent a vast delegation to Junior Sports on Monday. The town was one jammed old place. If you had a child out who was there at a voters list.

Rev. Barrie and family are on a motor trip to Banff.

Mr. and Mrs. N. E. Stuart and Mr. and Mrs. Neil Henders were visitors to Calgary Fair, over the Holiday.

Mr. and Mrs. J. W. Way spent several days at Calgary Fair.

H. B. Davidson, the Medicine Hat Barber and his family were in Alderson on Sunday, en route by motor to Banff.

The wedding of Miss Florence McKenzie at one time a resident of Alderson to a Carmungay Gentleman is reported. Congratulations to Florence.

Much regret is expressed over the sudden death of Mr. Ruthenford of Aldrich, the well known Pool Hall man and Barber. Mr. Ruthenford was only ill a few days from Typhoid.

Auto Livery to Medicine Hat every day of the week. Good careful service. For particulars call at the News Office Rates Reasonable

SUNNY SOUTH

WINS BALL GAME

In a rattling good game of Ball last Saturday that opened Alderson's first Diamond, the local boys went down to defeat by a score of 10-12. Alderson was weak in the start but steadied down early in the game and will no doubt give a better account of themselves in their future games. Bellows the Alderson twirler appears to have the goods. One of the best features of the game was the gentlemanly playing on both sides. There wasn't the least bit of bickering. "Bill Switzer" of Medicine Hat made a satisfactory referee. Batteries- Alderson: Gable, Bell, West and Waring. Sunny South: Smith and Burdick.

Irwin Murphy who has been acting as assistant agent at the local Indian Res. moved to Peace's Fork. A successor from Medicine Hat is expected shortly.

Misses J. J. Dahl and Hepburn and Ladies motored to Calgary this week.

Misses Steele, Moore and MacJannet were visitors to Calgary this week.

MAID MARJORY

- BY

L. G. MOBERLY

WARD LUCK & CO., LIMITED

London, Melbourne, and Toronto

"You're going to stay here, I suppose," Leslie said coldly, not even looking at the woman, who was looking out at the doctor, who, having placed his charge on the table, now crossed the room to her side.

"I don't know anything of sickness," said Marjory. "I could not be responsible for any sick person; it is useless to leave any responsibility in my hands. I would not undertake it."

"I will do all that can be done now," the doctor answered. "After that I am bound to drive on to the next village, and I shall not return to my house when the accident happened, and I have an urgent summons to go to him I dare not stay here longer than is absolutely necessary." "I will come back," I will come back as soon as I possibly can."

Leslie lifted her head, and Guy thought of the look in her face that had shone in her eyes, and he remembered, or one that gave so strong an impression of her face, that he felt that his wife's like pieces of blue light were so cold, so devoid of any warmth of human feeling.

"I am glad you will come back. You please understand clearly I can give no responsibility to any one in the name level, chilling tones, as before." "You can tell me what to do," he said. "I will do it." "You know nothing of illness, and I have no idea what you are capable of."

"I am an emergency like this can be only do our best, and I shall do it as gravely." "It is more than possible the poor child will not recover consciousness at all. She has been laid out, she can be her life is simply hanging by a thread. Her pulse is very faint, she has recovered consciousness, her tiny lips of brandy and water, you have brandy here."

"I have brandy here," she said, and she took the bottle and poured a little water into a glass, and she gave it to the doctor, who took it and gave it to the patient. "Yes, I have brandy," she said, and she took the bottle and poured a little water into a glass, and she gave it to the doctor, who took it and gave it to the patient.

"I will do what you can," she said, and she took the bottle and poured a little water into a glass, and she gave it to the doctor, who took it and gave it to the patient. with difficulty, but he found some from him. Only the fear that he had lost his eyes, and he was not, or her, and in answer to that fear it was only heaved over her head, and she said, "Why are you afraid?" she said, "Why do you look at me as if you were afraid of me? It is I, I am, you should have been brought here."

"The other woman's breath caught in a little sob. She looked wistfully into the cold face above her, she even tried to lift her hand, but it dropped helplessly back against her breast. It was the left hand she had tried to lift, and upon it they glared the heavy gold wedding ring which had previously attracted Thornton's notice. It also attracted Leslie's notice, and a flash of something very like hatred shone in her eyes when they saw it.

"I did not mean to hurt you," the woman on the couch gasped out, "you ever make me afraid, but I did not mean to hurt you."

The Doom of the Hohenzollerns

German Ruling Class are Outside

Pale of Civilization, Says

American Writer

On behalf of the allies in this war though not yet an experienced authority, it has many times been asserted that they would refuse to enter into a treaty of peace with the present Emperor of Germany; the Germans through a change of government or otherwise must and they have the signature of a chief of state not open to question.

charge of violating the pledged faith of treaty agreements. Finally, one of the signatory powers of the treaty guaranteeing the "nationality and independence of Belgium," the German Empire was bound by the covenant. It was broken when the Emperor's Chancellor, admitting that the invasion of Belgium was, contrary to law, declared that "necessity knows no law." It would be a far more serious violation of the conclusion of this war to make a treaty with a sovereign capable of such an act of perfidy.

Under the terms of the Versailles Peace Conference, the German Emperor of Germany would tear up the new "scripture of paper" as it were, and make a new one.

Does not the "scripture of paper" Mexico and Japan to enter into an alliance with Germany, the very terms of making war on the United States, and the very terms of making war on the United States.

state and people it is necessary that some other, than a Hohenzollern, should be the recognized head. The House of Hohenzollern has a dark shadow of crime against it, and it is longer put up with it. It sought to place a Hohenzollern on the throne of Spain; it did extend its controlling influence to the throne of Greece, Bulgaria and Rumania. The civilized and peaceful nations of the world have other and more profitable occupations than watching forever the machinations of the Hohenzollerns and guarding themselves against the deadly peril from that quarter.

The immeasurable, justifiable, guilt of the latest and the world will surely hope the last imperial representative of that house demands that the house decreed against Napoleon in 1871 may be entered against him. The Hohenzollerns are outside civilization's pale."

Dairying Industry of Saskatchewan Put on a Firm Basis

Until the provincial government took hold, the dairying industry of Saskatchewan was on a very shaky basis. In 1907 the output of the province had fallen to 17,000 pounds, whereas in 1911 it had been 360,000 pounds. With the inauguration of a government dairy branch, and the institution of the co-operative creamery, an entirely different state of affairs was brought about. The dairy branch now operates seventeen co-operatively owned creameries, located at central points on the different railways. Express charges on the cream are paid at the creamery, so that the farmer at a distance suffers nothing from the fact that the creamery is not at his own door. The dairy branch markets the product, and distributes the total net profits co-operatively twice a month, increasing the value of the milk.

The value of the extra feed is 800; this produced more milk to the value of \$1,677.60, so that the extra feed cost was \$1,077.60, and the cows were in much better condition.

Dairy records help to select good cows, for the first prize. Write the Dairy Commissioner Ottawa, for first and best records.

Remarkable Development in Aircraft

The great progress made in the development of aircraft in the last nine years was the subject of a recent lecture in London. In 1903 the Wright brothers flew at a rate of 35 miles an hour, while at the end of the year the fastest distance flown by the Wrights in 1908 was 72 miles an hour. The other day a Frenchman came near flying from Verdun to Rouen (64 miles). The Douglas in 1908, at an altitude of 5,000 feet, both a Frenchman and an Englishman had recently ascended to over 2,000 feet. The rate of ascent in 1909 by a Frenchman was 300 ft. in 1 minute, an aviator in England recently ascended 10,000 feet in 1 minute, the first 5,000 in five minutes, which was equal to the ascent of the fastest lift. Once they found difficulty in carrying a single passenger, now the largest machines take a crew of sixteen and a load of a ton and a half.

Enlarging Stock Yards at Winnipeg

Directors of the Winnipeg stock yards have decided to increase the capacity of the yards thirty per cent, and the efficiency of handling facilities forty per cent at a cost approximating \$100,000.

The block of pens immediately behind the present covered yards will be roofed, giving 115 additional covered pens; two new alleys with 40 catch pens will be cut off the new yards to facilitate the sorting and weighing of stock. At the end of the yards two more new alleys will be installed at the large pens used for shipping rough cattle.

Work on the improvements is to commence immediately with a view to finishing by August.

Women! It is Magic! Lift Out Any Corn

Apply a few drops 'then' lift corns or calluses off with finger—no pain

Just think! You can lift corns and calluses off without pain

A Cincinnati man discovered this when he found and named a foreign one. Any drugstore will sell a tiny bottle of this magic cream for a few cents. It is a very little cost. You apply a few drops and the corn or callus disappears. Then shortly you will find the corn or callus as loose as you can lift it right off.

Freemans is wonderful. It drives instantly out, doesn't eat away the corn or callus, but simply lifts it off without irritating the surrounding skin.

Hard, soft or corns between the toes, as well as corns on callus, but it lifts it off. There is no pain before or after. If you drag it off right, it will be no pain before or after.

For paper making secrets

The Oxford Press Syndicate

valued its formula for making the very thin, tough paper used in the Bible, and syndicate at more than \$200,000.

To protect the process required twenty-five years of hard work, and the expenditure of \$1,000,000 in cash.

A secret of even greater value is the formula for making the paper employed for the Bank of England notes. This is a family possession of the Portals of Laxapitoke, who when already in two generations, has brought an enormous fortune.

"How is your garden?" "Doing pretty fair."

"Anything peeping out that you plant?" "Yes, there was a big jug handle the day the minister called."

The Turtle Auto

Doesn't Hit This Strange War Machine

One of the weirdest looking machines yet offered for use in the world is being put out for sale in France and England. It is known as the "Turtle Auto."

It is covered in such a way that it is perfectly well protected. No matter what kind of machine or weapon is used, it is perfectly safe.

The turtle will glance up, as if it were looking at the enemy, and then it will turn and run.

It is a very simple machine, and it is very cheap. It is a very simple machine, and it is very cheap.

Boy Scout Notices

Official Recognition is Made of Boy Scout Uniform

Scouts uniform in Canada has been given official recognition by the Canadian government.

The Boy Scouts of America (B.S.A.) has been given official recognition by the Canadian government.

A similar recognition was granted the Boy Scouts of America at the National Council, Boy Scouts of America.

Mr. Robert Baden-Powell, Chief Scout of the Boy Scouts of the British Empire, has sent the following interesting message to Mr. Colin H. Livingston, president of the National Council, Boy Scouts of America.

On the great historical step taken by the United States in coming into the world as a nation, I must send you one word of greeting from the Boy Scouts of America.

We are already bound to the Boy Scouts of America by the tie of friendship in the past, and the same laws and the same badge for the same ideals, and that is the friendship of the two nations.

Two Splendid Things

One is plenty of open-air exercise.

If you can't get all of that you should, it's all the more important that you should have a good trial-and-true remedy for a torpid liver and bowels that don't act freely and naturally.

Take one pill every night, more only when you're sure it's necessary.

RED CROSS

Mrs. R. H. Wark, who has been in the employ of Mr. G. G. O'Brien, left for Alderson last week.

It is suggested that in nearly every farm in this district there are several old worn out plow shares. They are useless to the farmer and the Red Cross would like, every farmer to gather them together and they will be shipped to Calgary to one of the Junk Dealers and the Red Cross will receive the funds for the old iron. Can you do this Mr. Farmer? Leave them at the Hotel Alderson.

THE NEWSPAPER MAN

He's a clever, red-blooded young
fellow,
With an eye that is pleasant and
clean,
He hasn't a dash of the yellow,
His record is perfectly clean,
He views all your sins and your
weaknesses.

As a part of one infinite plan,
But he can't be a model of meekness
That kindly young newspaper man

He treads with a step duly muffled
Beside the dead statesman's dark
bier.

He passes wit, temper unruffled,
From the jail to the hall of the peer
He has drunk of the battles red glory
From France to the sea of Japan,
Next time that you read a bold story
Remember the newspaper man

He is neither a slanderer nor cruel;
He just wants to get the whole
truth.

In the midst of life's bitterest duel
He shows wisdom and calmness
and truth.

In the palace or hut of the peasant,
Go tell his whole story who can;
Folly half the good things of the
present

You owe to the newspaper man.

He fights for the poor and the feeble
And exposes the fool and the knave
He has championed the rights of the
people

With a spirit unselfish and brave;
And when at the grand renunciation
All those bright sunny faces I see
Among those who shall share my
affection

Will be a young newspaper man.

On Deck
July 26th

We loved him in life's golden morn-
ing.

A thoroughbred, dainty and shy,
All wisdom and dishonor still, serene
ing.

Vice fled from the glance of his eye
But the old silver banner was call-
ing.

He went out when the battle be-
gan,
And while the red harvest was fall-
ing.

Death called the young news-
paper man,

Dedicated to James Sharpe,
Eddie Seaton, Howard Wilson and
the Canadian press that have gone
before.
